MAYURESH VENGURLEKAR

Full Stack Developer

Mumbai, India | +91 8108735755 | mayuresh.vengurlekar19@gmail.com
mayureshvengurlekar.com | GitHub

PROFESSIONAL SUMMARY

Computer Engineering undergraduate and Full Stack Developer with hands-on experience building **scalable web applications, RESTful APIs, backend architectures, and database-driven systems**. Proficient in **JavaScript, React.js, Node.js, Express.js, MongoDB, PostgreSQL, and Python**, with practical experience developing responsive applications, integrating frontend and backend services, and implementing efficient application workflows. Experienced in **debugging, testing, API development, database integration, Git/GitHub, and collaborative software development**, with additional exposure to Generative AI and Machine Learning.

TECHNICAL SKILLS

Frontend: React.js, JavaScript

Backend: Node.js, Express.js, RESTful APIs

Programming: JavaScript, Python, Java

Databases: MongoDB, PostgreSQL

Development & Version Control: Git, GitHub

Software Engineering: Full-Stack Development, Backend Architecture, API Integration, Database Integration, Debugging, Testing, Application Performance

AI/ML: Generative AI, Machine Learning

EXPERIENCE

Tech Lead — Ekdrishti Group Pvt. Ltd.

Apr 2026 – Present

- Lead the end-to-end development and delivery of **scalable full-stack web applications**.

- Design and implement robust **backend architectures, RESTful APIs, and database solutions** for efficient application workflows.
- Manage a development team by assigning tasks, conducting **code reviews**, and mentoring team members to maintain high-quality development practices.
- Collaborate with clients, stakeholders, and cross-functional teams to analyze requirements and deliver optimized technical solutions.
- Contribute to application design, development, debugging, and implementation of reliable software solutions.

Full Stack Developer Intern — DreamVentz Private Limited

Jan 2026 – Mar 2026

- Developed and maintained **responsive full-stack web applications using the MERN stack**.
- Implemented reusable frontend components and backend functionalities using **React.js, Node.js, and Express.js**.
- Designed and integrated **RESTful APIs** to support dynamic application features and frontend-backend communication.
- Integrated **MongoDB** databases and managed application workflows for efficient data handling and system operations.
- Assisted in **debugging, testing, and resolving software issues** to improve application stability and performance.

PROJECTS

Healthcare Appointment Management System with Facility Directory

- Developed a **full-stack healthcare platform** supporting doctor profile management, dynamic appointment scheduling, and real-time availability tracking.
- Implemented backend workflows for appointment management and integrated **automated email notifications**.
- Built a searchable facility directory with filtering functionality to improve information discovery.
- Developed a responsive user interface with patient feedback and rating functionality.

- Integrated database-driven application workflows using **MongoDB and PostgreSQL**.
- Implemented frontend and backend components to support efficient application functionality and data management.

EDUCATION

Vidyalankar Institute of Technology, Mumbai

Bachelor of Technology — Computer Engineering
2023 – 2027 | CGPA: 9.9 / 10

CORE COMPETENCIES

- Full-Stack Web Application Development
- React.js Development
- Node.js & Express.js
- RESTful API Development
- MongoDB & PostgreSQL
- Frontend–Backend Integration
- Database-Driven Applications
- Backend Architecture
- Debugging & Testing
- Git & GitHub
- Software Engineering Fundamentals
- Data Structures & Algorithms
- Team Leadership & Code Reviews
- Client & Stakeholder Collaboration
